

BBA Chapter 21 — Haphel Stem Drill

Haphel (H Stem — Causative) · Daniel and Ezra

For each numbered Haphel verb form drawn from Daniel or Ezra, identify the Conjugation (Perfect / Imperfect / Imperative / Infinitive / Participle), the Root (three root consonants, Peal perfect 3ms form), the PGN (Person-Gender-Number; N/A for infinitive; ms/mp/fs for participle), and provide an English translation. All forms are Haphel (H stem — causative). Haphel perfect: ha- prefix before R1; tsere in R2; no R2 dagesh. Haphel imperfect: yeh- prefix letter + ha- visible in stem (yeha-); tsere in R2. Haphel infinitive: leha- + qamets in R2 + -ah ending. Haphel participle: meha- prefix; tsere in R2; no R2 dagesh (contrast Pael: R2 dagesh). I-yod roots (yadac): ha + yeh- contracts to ho- (holem-waw). Hollow roots (qum): haqim pattern (compensatory dagesh in R3, not D-stem doubling). "Bring" root (yty/ath): fixed stem hethi (Haphel perfect 3ms).

Haphel Stem Drill — Items 1–20

#	Form	Conjugation	Root	PGN	Translation
1	הוֹדַע				
2	הַקִּימִים				
3	הִיטִי				
4	יְהוֹדַע				
5	לְהוֹדְעָה				
6	מִהוֹדַע				
7	הַשְּׁלִיחַ				
8	מִהַעֲדָה				
9	מִהַשְּׁנֵא				
10	הַקִּימוּ				
11	לְהַשְּׁלִיחַ
